Mini-courses:

- **Alexander Komech** (*Institute for Information Transmission Problems, Moscow, Russia*; alexander.komech@univie.ac.at) "Global attractors of nonlinear hyperbolic PDEs".

- **Nikolai Vasilevski** (*CINVESTAV, México*; nvasilev@math.cinvestav.mx) "Commutative algebras of Toeplitz operators on the unit ball".

- **Grigori Rozenblioum** (*Chalmers University of Technology, Gothenburg, Sweden*; grigori@chalmers.se) "Perturbed Landau Hamiltonian and spectral properties of Toeplitz operators".

- **Peter Kuchment** (*Texas A&M University*; kuchment@math.tamu.edu) "Can one hear the heat of a body? A Survey of Mathematics of Thermo- and Photoacoustic Tomography".

- **Jean Paul Gauthier** (*University of Toulon, Toulon, France*; gauthier@univ-tln.fr) "Inverse problems in control theory".
